Jon Andoni Duñabeitia Ph.D. (Bilbao, 1981) is a researcher in Cognitive Science of Language who currently works as a Full Professor of the Universidad Nebrija (Madrid). Prof. Duñabeitia is the Principal Investigator of two research groups studying the neurobiological and cognitive substrates of multilingualism and reading throughout the life cycle. He aims to understand the cognitive processes associated with the acquisition of oral and written languages in monolingual and multilingual populations of different ages. He has published more than 80 articles in the main international scientific journals in the field.
